Nottingham
City Council

Nottingham City Council's Woodthorpe Nursery has been producing award-winning displays for more than 20 years, with a string of Gold medals and the accolade of 'Champion of Champions' from RHS Britain in Bloom along with a hat-trick of awards from the Association of Public Service Excellence.

Our renowned displays, plants and services are now available to other local authorities and corporate customers. Whether for the summer season or all round the year, we pride ourselves on attention to detail, achieving excellent quality and first-rate customer service.

We are uniquely placed to provide a complete service from concept through to delivery. Our prices are competitive, realistic and affordable. We understand the financial pressures faced by clients and will work within your budget.

Our range of products and services includes:

- Supply of plants
- Hanging baskets and barrier troughs
- Multi-tier displays /Beehives
- Bespoke creations
- Hire of temporary displays
- Flowerbed/ Traffic island design
- Landscape architectural services
- Technical advice
- Maintenance (dependent on location)
- Indoor plant displays

Our experienced team would be pleased to welcome you to our high-tech glasshouse to discuss your unique requirements.

"In the past we have used private independent growers and nurseries, none of these have come close to providing us with anything like the service given by Nottingham City Council. We are delighted and plan to keep using the excellent service provided."

Newark and Sherwood District Council

"The baskets display masses of flowers and striking colours, the seasonal bedding has equally provided the same great colour and vigour! It has been great working with a neighbouring Authority who have provided a personal, honest and efficient service throughout the seasons. Keep up the great work!"

Amber Valley Borough Council

“Our partnership with Nottingham City Council’s Nursery has blossomed over the past three years through the commissioning and creation of a floral trail of wicker sculptures, which has been greeted with tremendous enthusiasm by city centre shoppers and has generated extra footfall for businesses. Imaginative planting and daily maintenance by the Council’s dedicated team ensure that the sculptures are attractive throughout the season.”
