Dear MRS Knight

I wish to restate my concerns
regarding local planning.

Safety and security of housing
residence in the design of
housing estates, and wildlife
Nature Reserve protection,

the importance of which has been
recently highlighted by BBC's Countryfile
and Chris Packham presented presenter
of Spring and Nature Watch and Documentary
maker, that protection has become even more
crucial as it has become increasingly popular for
people to cover their gardens with pebbles
or slates etc

Yours Faithfully
