12 June 2019

Dear Karen,

NOTTINGHAM CITY PART 2 LOCAL PLAN – PROPOSED MAIN MODIFICATIONS TO THE LAND AND PLANNING POLICIES DOCUMENT

Highways England welcomes the opportunity to comment on the Nottingham City Part 2 Local Plan for the proposed Main Modifications to the Nottingham City Land and Planning Policies (LAPP) document, revised publication version of May 2019 which covers the period from 2011 to 2028. We note that this is a revision of the document published in September 2017.

Highways England has been appointed by the Secretary of State for Transport as strategic highway company under the provisions of the Infrastructure Act 2015 and is the highway authority, traffic authority and street authority for the Strategic Road Network (SRN). It is our role to maintain the safe and efficient operation of the SRN whilst acting as a delivery partner to national economic growth. In relation to the Nottingham City Local Plan, our principal interest is safeguarding the operation of the M1, A52 and A453.

Highways England most recently provided comments on the September 2017 version of the LAPP document in November 2017 and had limited comments to provide. We note that this current consultation is predicated on the tracked changes which have been made to the September 2017 document.

Following review of the revised LAPP document of May 2019, no significant modifications have been made and as such we have no further comments to make.

We trust that the above is useful in the progression of the Nottingham City Local Plan and wish to remain engaged with the Council as the Plan progresses.

Yours sincerely,
